## Ring Size Guide

Before measuring your ring size, make sure you have printed this piece of paper at 100% scale.

To double-check that these sizes are correct, check that these items fit correctly:

- a US dime is a size 8
- a US penny is a size 9.5
- a US nickel is a size 11.5

If you're having issues, try changing your printer settings from "Fit" to 100% scale.

### SIZING OPTION 1

If you have an existing ring that fits you well, match the inside of that ring with one of the circles shown here. Make sure that you aren't seeing the pink color (or dark gray, if you printed in black & white) in the space within the ring.
